IMPORTANT

1. Do not use while bathing or in the shower.
2. Do not use outdoors or operate where any opening.
3. Do not use while sleeping.
4. Do not place in, or drop into, water or other liquid.
5. Do not place in, or drop into, water or aerosol (spray) products are being used or where oxygen is being administered.
6. Do not use the appliance on any surface while it is operating.
7. While using the appliance, keep your hair away from the air inlets.

This appliance is intended for household use only. Use an Alternating Current (50/60 hertz) only. Standard dryers are desgined to operate at 110 to 125 volts AC. For special dual voltage dryers, see Additional Information.

1. Plug in the appliance and press test button on plug (see appropriate diagram below). The appliance will stop working. There will be an audible click and reset button will pop out.

2. To reset ALCI with a reset button, unit should be unplugged. Then push reset button in, and reinsert plug into outlet.

3. To reset ALCI with a reset button, unit should be unplugged. Then push reset button in, and reinsert plug into outlet.

4. If ALCI is not functioning properly, return appliance to nearest service center.

5. It is important that if immersion occurs, this unit be brought to a service center. Do not try to reset.

6. Be sure to repeat test every time you use the unit to confirm ALCI is operational. Should the appliance go off and the reset button pop up during use, this could indicate a malfunction in the unit. Remove plug from outlet and allow the appliance to cool. Reinsert plug into outlet.

7. This appliance is intended for household conversion to 250 volt operation.

8. Never use with voltage converter. This appliance is equipped with an Appliance Leakage Circuit Interrupter (ALCI), a safety feature that renders it inoperable under some abnormal conditions, such as immersion in water.

- Plug in the appliance and press test button on plug (see appropriate diagram below). The appliance will stop working. There will be an audible click and reset button will pop out.
- To reset ALCI with a reset button, unit should be unplugged. Then push reset button in, and reinsert plug into outlet.
- To reset ALCI with a reset button, unit should be unplugged. Then push reset button in, and reinsert plug into outlet.
- If ALCI is not functioning properly, return appliance to nearest service center.

15. Do not use with voltage converter.

16. Be sure dual voltage selector is in correct voltage position before operating. Before plugging in, read the information about use as described in this manual. Do not use attachments not recommended by the manufacturer.

17. This appliance was set at the factory to operate at 125 volts. Refer to Additional Information section of this manual.

18. Never operate this appliance if it has a damaged cord or plug, if it is not working properly, if it has been dropped, damaged, or dropped into water.

19. Return the appliance to an Authorized Conair Service Center for examination and repair.

20. Keep the cord away from heated surfaces. Do not pull, twist, or wrap the cord around the appliance.

21. Never block the air openings of the appliance or place it on a soft surface, such as a bed or couch, where the air openings may be blocked. Keep the air openings free of lint hair and the like.

22. Never use while sleeping.

23. Do not use while bathing or in the shower.

24. Do not use outdoors or operate where any opening.

25. Do not place in, or drop into, water or other liquid.

26. Do not place in, or drop into, water or aerosol (spray) products are being used or where oxygen is being administered.

27. While using the appliance, keep your hair away from the air inlets.

28. If an appliance falls into water; unplug it immediately. Do not reach into the water.

29. Do not use while bathing or in the shower.

30. Do not use outdoors or operate where any opening.

31. Do not use while sleeping.

32. Do not place in, or drop into, water or other liquid.

33. Do not place in, or drop into, water or aerosol (spray) products are being used or where oxygen is being administered.

34. Do not use the appliance on any surface while it is operating.

35. While using the appliance, keep your hair away from the air inlets.

36. If an appliance falls into water; unplug it immediately. Do not reach into the water.

37. Do not use while bathing or in the shower.

38. Do not use outdoors or operate where any opening.

39. Do not use while sleeping.

40. Do not place in, or drop into, water or other liquid.

41. Do not place in, or drop into, water or aerosol (spray) products are being used or where oxygen is being administered.

42. Do not use the appliance on any surface while it is operating.

43. While using the appliance, keep your hair away from the air inlets.

44. Do not use while bathing or in the shower.

45. Do not use outdoors or operate where any opening.

46. Do not use while sleeping.

47. Do not place in, or drop into, water or other liquid.

48. Do not place in, or drop into, water or aerosol (spray) products are being used or where oxygen is being administered.

49. Do not use the appliance on any surface while it is operating.

50. While using the appliance, keep your hair away from the air inlets.

51. Do not use while bathing or in the shower.

52. Do not use outdoors or operate where any opening.

53. Do not use while sleeping.

54. Do not place in, or drop into, water or other liquid.

55. Do not place in, or drop into, water or aerosol (spray) products are being used or where oxygen is being administered.

56. Do not use the appliance on any surface while it is operating.

57. While using the appliance, keep your hair away from the air inlets.

58. Do not use while bathing or in the shower.

59. Do not use outdoors or operate where any opening.

60. Do not use while sleeping.

61. Do not place in, or drop into, water or other liquid.

62. Do not place in, or drop into, water or aerosol (spray) products are being used or where oxygen is being administered.

63. Do not use the appliance on any surface while it is operating.

64. While using the appliance, keep your hair away from the air inlets.

65. Do not use while bathing or in the shower.

66. Do not use outdoors or operate where any opening.

67. Do not use while sleeping.

68. Do not place in, or drop into, water or other liquid.

69. Do not place in, or drop into, water or aerosol (spray) products are being used or where oxygen is being administered.

70. Do not use the appliance on any surface while it is operating.

71. While using the appliance, keep your hair away from the air inlets.

72. Do not use while bathing or in the shower.

73. Do not use outdoors or operate where any opening.

74. Do not use while sleeping.

75. Do not place in, or drop into, water or other liquid.

76. Do not place in, or drop into, water or aerosol (spray) products are being used or where oxygen is being administered.

77. Do not use the appliance on any surface while it is operating.

78. While using the appliance, keep your hair away from the air inlets.

79. Do not use while bathing or in the shower.

80. Do not use outdoors or operate where any opening.

81. Do not use while sleeping.

82. Do not place in, or drop into, water or other liquid.

83. Do not place in, or drop into, water or aerosol (spray) products are being used or where oxygen is being administered.

84. Do not use the appliance on any surface while it is operating.

85. While using the appliance, keep your hair away from the air inlets.

86. Do not use while bathing or in the shower.

87. Do not use outdoors or operate where any opening.

88. Do not use while sleeping.

89. Do not place in, or drop into, water or other liquid.

1. Plug in the appliance and press test button on plug (see appropriate diagram below). The appliance will stop working. There will be an audible click and reset button will pop out.

2. To reset ALCI with a reset button, unit should be unplugged. Then push reset button in, and reinsert plug into outlet.

3. To reset ALCI with a reset button, unit should be unplugged. Then push reset button in, and reinsert plug into outlet.

4. If ALCI is not functioning properly, return appliance to nearest service center.

5. It is important that if immersion occurs, this unit be brought to a service center. Do not try to reset.

6. Be sure to repeat test every time you use the unit to confirm ALCI is operational. Should the appliance go off and the reset button pop up during use, this could indicate a malfunction in the unit. Remove plug from outlet and allow the appliance to cool. Reinsert plug into outlet.

7. This appliance is intended for household conversion to 250 volt operation.

8. Never use with voltage converter. This appliance is equipped with an Appliance Leakage Circuit Interrupter (ALCI), a safety feature that renders it inoperable under some abnormal conditions, such as immersion in water.

9. Return the appliance to an Authorized Conair Service Center for examination and repair.

10. Keep the cord away from heated surfaces. Do not pull, twist, or wrap the cord around the appliance.

11. Never block the air openings of the appliance or place it on a soft surface, such as a bed or couch, where the air openings may be blocked. Keep the air openings free of lint hair and the like.

12. Never use while sleeping.

13. Do not use while bathing or in the shower.

14. Do not use outdoors or operate where any opening.

15. Do not use while sleeping.

16. Do not place in, or drop into, water or other liquid.

17. Do not place in, or drop into, water or aerosol (spray) products are being used or where oxygen is being administered.

18. Do not use the appliance on any surface while it is operating.

19. While using the appliance, keep your hair away from the air inlets.

20. Do not use while bathing or in the shower.

21. Do not use outdoors or operate where any opening.

22. Do not use while sleeping.

23. Do not place in, or drop into, water or other liquid.

24. Do not place in, or drop into, water or aerosol (spray) products are being used or where oxygen is being administered.

25. Do not use the appliance on any surface while it is operating.

26. While using the appliance, keep your hair away from the air inlets.

27. Do not use while bathing or in the shower.

28. Do not use outdoors or operate where any opening.

29. Do not use while sleeping.

30. Do not place in, or drop into, water or other liquid.

31. Do not place in, or drop into, water or aerosol (spray) products are being used or where oxygen is being administered.

32. Do not use the appliance on any surface while it is operating.

33. While using the appliance, keep your hair away from the air inlets.

34. Do not use while bathing or in the shower.

35. Do not use outdoors or operate where any opening.

36. Do not use while sleeping.

37. Do not place in, or drop into, water or other liquid.

38. Do not place in, or drop into, water or aerosol (spray) products are being used or where oxygen is being administered.

39. Do not use the appliance on any surface while it is operating.

40. While using the appliance, keep your hair away from the air inlets.

41. Do not use while bathing or in the shower.

42. Do not use outdoors or operate where any opening.

43. Do not use while sleeping.

44. Do not place in, or drop into, water or other liquid.

45. Do not place in, or drop into, water or aerosol (spray) products are being used or where oxygen is being administered.

46. Do not use the appliance on any surface while it is operating.

47. While using the appliance, keep your hair away from the air inlets.

48. Do not use while bathing or in the shower.

49. Do not use outdoors or operate where any opening.

50. Do not use while sleeping.

51. Do not place in, or drop into, water or other liquid.

52. Do not place in, or drop into, water or aerosol (spray) products are being used or where oxygen is being administered.

53. Do not use the appliance on any surface while it is operating.

54. While using the appliance, keep your hair away from the air inlets.

55. Do not use while bathing or in the shower.
