

READ AND SAVE THESE INSTRUCTIONS

IMPORTANT SAFEGUARDS

When using an electrical appliance, basic safety precautions should always be taken to reduce the risk of fire, electric shock, and/or injury, including the following:

1. **READ ALL INSTRUCTIONS BEFORE USING.**
2. To reduce the risk of electric shock, always unplug the air purifier from the electrical outlet immediately after using as well as before replacing or removing any filters.
3. The air purifier should always be placed on a flat, secure surface.
4. The cord should be kept away from any heated surfaces.
5. Never place or store the air purifier where it could fall or be pulled into a sink or bathtub.
6. Do not reach for the air purifier if it has fallen into water. Unplug the appliance immediately.
7. Do not place in or drop into water or other liquids.
8. Do not place anything on top of unit.
9. Always keep the air purifier dry and do not operate in wet or moist conditions, such as in bathrooms, laundry areas or similar moist indoor locations.

10. Always unplug the air purifier when not in use.
11. Check your air purifier cord and your outlet. A faulty wall outlet or loose plug can cause the outlet or plug to overheat. Make sure the plug fits tightly in outlet.
12. Do not run power cord under carpeting, runners or similar floor coverings.
13. Do not use this product outdoors.
14. Do not block air intake vents or exhaust in any manner. Do not use on any soft surface, such as a couch or bed, where the openings may become blocked.
15. Do not tilt or move the air purifier while the unit is powered on. Make sure the power is off and remove the plug from the outlet before moving.
16. Use this air purifier only for its intended use as described in this manual. Any other use not recommended by the manufacturer may cause fire, electric shock, or serious injury to a person.
17. Press the power button to turn off the air purifier prior to removing plug from outlet.
18. Children aged 8 and over, as well as persons with reduced physical, sensory or mental abilities or who lack experience and knowledge, may use the device if they are supervised or instructed in the safe use of the device and are aware of the risks involved. Children should not play with this appliance as a toy.
19. For use with the Conair-supplied adapter CA29 only.
20. This device complies with the maximum allowable concentration of ozone of 0.050 parts per million by volume (ppmv) in a 24-hour period.

OPERATING INSTRUCTIONS FOR HOUSEHOLD USE ONLY

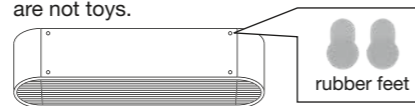

CAUTION

This appliance is for household use. Any servicing other than cleaning and user maintenance should be performed by an authorized service representative.

- Do not immerse base in water.
- Make sure the air purifier is always 6 inches away from any walls as well as at least 3 feet away from any heat source.
- Repairs should be made only by authorized personnel.
- Never clean with scouring powders or hard implements.

CAUTION CHOKING HAZARD

This product contains small parts, such as a silicone cover and rubber feet, that may cause choking if swallowed by children. To avoid danger of choking, keep away from babies and children. These parts are not toys.

WARNING

To reduce the risk of fire or electric shock, do not use this air purifier with any solid-state speed control device.

INTRODUCTION

Congratulations on purchasing a ConairPure™ Medium Room Air Purifier. The Medium Room Air Purifier comes complete with triple filtration, using a PET Pre-filter, high-grade HEPA H13 filter, and Carbon Cotton filter. The three-stage filtration system will capture up to 99.9% of airborne particles 0.1 micron or larger, including smoke, dust, and various other contaminants, to provide fresher, cleaner air.*

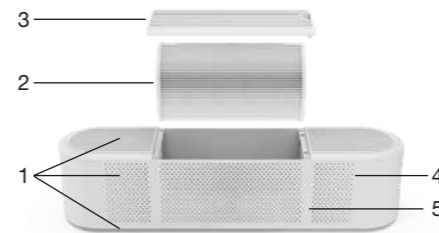

**When used in accordance with the directions in this instruction manual.*

UNPACKING INSTRUCTIONS

Place the box containing your ConairPure™ Medium Room Air Purifier on a sturdy, flat surface. Open the top flap and remove the instruction booklet and other printed materials from the box. Remove all packing material from unit.

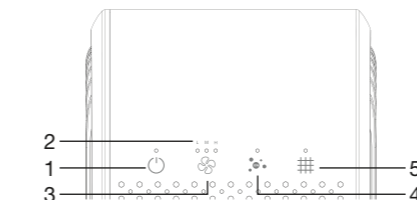

FEATURES AND BENEFITS

1. Three Sides of Airflow Output
2. Combination Pre-filter, HEPA H13, and Carbon Cotton Filter
3. Filter Cover Panel
4. Control Panel
5. Base/Housing

TOUCHSCREEN CONTROLS

1. ON/OFF
2. Speed Indicators
3. Fan Speed Icon
4. Positive and Negative Ion Generator
5. Filter Replacement Indicator/Reset Icon

DIRECTIONS FOR USE

1. Place the air purifier on a sturdy, flat surface.
2. Make sure the unit is plugged in. When plugged in, all indicators will light up for 2 seconds, then the ON/OFF button will illuminate at 50% with the other indicators dark. At this point, the unit will be in standby mode.
3. Turn On/Off: Press the ON/OFF button to turn the machine on and off.
4. Fan Speeds: Choose from 3 fan speeds, L, M, H (Low, Medium, High). Press the Fan Speed Icon and continue pressing until you have reached your desired speed, then release the icon.
5. Filter Replacement Indicator: The filter life is 2,500 hours. Filter Indicator will illuminate in red at 2,200 hours, indicating it is time to replace the filter. Note: When the unit is on standby mode, the red indicator is not illuminated.
6. Ion Generator: Press this icon to turn the positive and negative ion generator on and off.
7. To use the air purifier in the flat, horizontal position, use a coin or screwdriver to remove the metal screws on the stand base. Then apply the rubber feet provided to the flat surface on the bottom of the air purifier after first removing the paper covers on the back of the feet. Insert the supplied silicon cover into the opening for the stand on the side of the air purifier.

NOTE: Standby mode is when the ON/OFF button is illuminated at 50%. When the device is running, the ON/OFF button is fully lit.

NOTE: Utilizing a high-grade HEPA H13 filter does not make this a medical device.

REMOVING FILTERS

Always unplug your ConairPure™ Medium Room Air Purifier from the electrical outlet before replacing or removing filters. To remove the Filter Cover Panel, place your finger into the opening on the side of the unit

and pull lightly on the panel. To remove the combined Pre-filter, HEPA H13, and Carbon Cotton filter, simply pull on the filter tabs and remove from the unit.

INSTALLING YOUR REPLACEMENT FILTER SYSTEM

1. Your air purifier will automatically tell you when it's time to change the filters. The Filter Replacement Indicator on the control panel will illuminate after 2,200 hours of runtime has been reached.
2. Place the new filter into the housing and push until you feel resistance. Make sure the white tab is facing out.
3. Place the Filter Cover Panel back onto the unit.

4. Reset the filter indicator by pressing and holding down the Reset Icon for 3 seconds — the red indicator will turn off.

FEATURES AND SPECIFICATIONS

The filter is a combined Pre-filter, HEPA H13 filter, and Carbon Cotton filter that can capture up to 99.9% of airborne particles 0.1 micron or larger, including various contaminants such as smoke, dust, pollen, and pet odors.* The AP04's quiet DC motor with three-stage filtration system purifies in an up to 200 sq. ft. room based on 2 air changes per hour.

3-STAGE AIR INTAKE HIGH-GRADE HEPA H13 FILTRATION SYSTEM

- HEPA H13 — High-grade filter that can capture, along with the other filters below, up to 99.9% of airborne particles 0.1 micron or larger, including various contaminants such as smoke, dust, pollen, and pet odors.*
- Carbon Cotton filter – Captures various unwanted odors.
- Pre-filter – Captures larger airborne particles such as dust and pet dander.

**When used in accordance with the directions in this instruction manual.*

CLEANING AND MAINTENANCE

If the air purifier contains too much dust or pet dander, we suggest cleaning the Pre-filter more often than once a month to maintain 2,500 hours of filter life. Always unplug your air purifier from the electrical outlet before replacing or removing any filters.

1. Unplug the power cord from the unit and from the outlet. If the Pre-filter is very dirty, you may need to use a dry and soft brush or vacuum cleaner to gently clean it.
2. The best way to clean the HEPA H13 filter is to use a vacuum cleaner with the brush attachment. Gently run the brush attachment along the outside of the filter only. You do not need to vacuum the Carbon Cotton Filter inside of the HEPA H13 filter.

STORAGE

When not in use, your device should be disconnected and stored in a safe, cool, dry location out of reach of children.

WARRANTY LIMITED ONE-YEAR WARRANTY

This warranty is available to U.S. consumers only. You are a consumer if you own a ConairPure™ Medium Room Air Purifier that was purchased at retail for personal, family, or household use. Except as otherwise required under applicable law, this warranty is not available to retailers or other commercial purchasers or owners. We warrant that your ConairPure™ Medium Room Air Purifier will be free of defects in materials and workmanship under normal home use for 1 year from the date of original purchase.

We recommend that you visit register.conair.com for a fast, efficient way to complete your product registration.

However, product registration does not eliminate the need for the consumer to maintain the original proof of purchase in order to obtain the warranty benefits. In the event that you do not have proof of purchase date, the purchase date for purposes of this warranty will be the date of manufacture.

CALIFORNIA RESIDENTS ONLY

California law provides that for In-Warranty Service, California residents have the option of returning a nonconforming product (A) to the store where it was purchased or (B) to another retail store that sells Conair® products of the same type. The retail store

shall then, according to its preference, either repair the product, refer the consumer to an independent repair facility, replace the product, or refund the purchase price less the amount directly attributable to the consumer's prior usage of the product. If neither of the above two options results in the appropriate relief to the consumer, the consumer may then take the product to an independent repair facility, if service or repair can be economically accomplished. Conair and not the consumer will be responsible for the reasonable cost of such service, repair, replacement, or refund for nonconforming products under warranty. California residents may also, according to their preference, return nonconforming products directly to Conair for repair or, if necessary, replacement by calling our Consumer Service Center toll-free at 1-800-3-CONAIR. Conair will be responsible for the cost of the repair, replacement, and shipping and handling for such nonconforming products under warranty.

HASSLE-FREE REPLACEMENT WARRANTY

Your ultimate satisfaction in Conair products is our goal, so if your ConairPure™ Medium Room Air Purifier should fail within the generous warranty period, we will repair it or, if necessary, replace it at no cost to you.

To obtain a return shipping label, visit us at <https://www.conair.com/en/CustomerSupport>.

Or call our toll-free Consumer Service at 1-800-3-CONAIR to speak with a representative.

Your ConairPure™ Medium Room Air Purifier has been manufactured to the strictest specifications and has been designed for use only in 120-volt outlets and only with authorized accessories and replacement parts. This warranty expressly excludes any defects or damages caused by attempted use of this unit with a converter, as well as use with accessories, replacement parts or repair service other than those authorized by Conair. This warranty does not cover any damage caused by accident, misuse, shipment, or other than ordinary household use. This warranty excludes all incidental or consequential damages. Some states do not allow the exclusion or limitation of these damages, so these exclusions may not apply to you. You may also have other rights, which vary from state to state.

IMPORTANT: If the nonconforming product is to be serviced by someone other than Conair's Authorized Service Center, please remind the servicer to call our Consumer Service Center at 1-800-3-CONAIR to ensure that the problem is properly diagnosed, the product is serviced with the correct parts, and the product is still under warranty.

FEDERAL COMMUNICATIONS COMMISSION NOTICE

WARNING

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the

FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

SUPPLIER'S DECLARATION OF CONFORMITY
