## CÓMO MASAJEAR LAS PIERNAS Y LAS PANTORRILLAS

El masajeador se puede usar con o sin vibraciones. Agarrando las agarraderas, abra las bisagras flexibles del masajeador y colóquelo alrededor de una de sus pantorrillas o muslos. Para activar las vibraciones, presione el botón de encendido/apagado.

Mueva el masajeador suavemente hacia arriba y abajo en su pierna, aumentando gradualmente la presión. Cuanto más presione, más profundo será el masaje de tejidos. Sin embargo, reduzca la presión si le resulta incómodo el masaje, o podría causar moretones. Masajee sus piernas para aliviar los músculos tensos y doloridos después de caminar, estar de pie por mucho tiempo o hacer ejercicio.

Para masajear sus muslos, ajuste el masajeador alrededor de la zona deseada (con o sin vibraciones) y muévelo hacia arriba y abajo, usando movimientos largos, por varios minutos.

Se recomienda realizar un masaje de hasta 10 minutos cada día, 4 o 5 veces por semana. Por lo general, cuanto más presione, más profundo será el masaje de tejidos. Sin embargo, reduzca la presión si le resulta incómodo el masaje, o podría causar moretones. Si su piel es muy sensible, puede usar "leggings" (calzas/mallas) o un pantalón de ejercicio y usar el masajeador por encima de la tela. Si suele usar loción o crema en las piernas, se recomienda masajear primero y usar loción/crema después.

**NOTA:** El masajeador está diseñado principalmente para ser usado en las pantorrillas y las piernas, pero también puede usarse en los brazos y los hombros. Si tiene el cabello largo, cerciórese de que este (o sus joyas/alhajas) no queden atrapados en los rulos. Interrumpa el uso en caso de dolor o hinchazón.
